

DO YOU WANT TO KNOW MORE ABOUT ACTION-BASED-LEARNING METHODOLOGIES ?

ABOUT THE PROJECT

The eSTEM project is designed for HEI lecturers and educators belonging to STEM Faculties with the objective to increase the capacity to develop high-quality training content adopting active learning methodologies.

Project Partners: University of Pisa, University of Bordeaux, University of Bremen, Technical University of Koszalin, University of Zaragoza, Erre Quadro

www.superfastlearning.eu

We created a training program composed of 5 webinars to let you discover our outputs and learn how to use them for preparing action-based-learning situations
